### Precaution

Please be careful of the following:

1. Manual soldering: maximum temperature of iron tip:  $260^\circ\text{C}$  max.  
Soldering time: within 5 sec. per solder-land  
Soldering portion of lead: up to 1.6 mm from the body of the device
2. Reflow solder: recommended condition is as follows:

3. Absolute secure counter measures against static electricity and surge should be taken when handling these products. It is recommended to use wrist band or antistatic gloves when handling these LEDs.

for reflow soldering
